

Single rip saw----- MJ162A

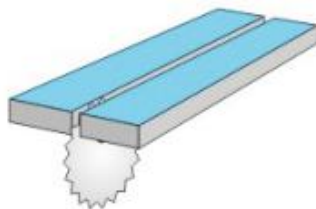

Core-competitiveness

- 1、 Unique double-ended bearing support ,multi-V precision linear guide made of high hardness,wear-resistant conveyor chain pieces,so delivery precision,stable.
- 2、 Unique spindle and motor direct design, no power loss,no noise,high precision
- 3、 Unique volumetric lubrication system to ensure excellent lubrication performance , so that the workpiece is smooth and precise delivery
- 4、 The use of variable frequency speed feeding,making soft ,hardwood sawing speed is reasonable, smooth incision, so that the workpiece size more accurate
- 5、 Body plate with snap-type laser welding process,high strength,more beautiful

Sample display

Specification

saw blade dia	255/355mm
Max processing thickness	80mm
Min processing length	250mm
Sawing width	left 300mm/right 460mm
spindle speed	2900rpm
Spindle dia	Ø50.8
feeding speed	3-26m/min
Main motor power	7.5/9kw
feed motor power	1.1kw
blade thickness	3.2-5.0mm
Working table size	850*1400mm
Overall size	1600*1330*1490mm
Weight	855kg
